## WTF??? EMIL WHO????

Emil was the founder of the Revolutionary Cadre for Artistic Freedom - 2020...

You too can become a part of a part of the Revolutionary Cadre for Artistic Freedom to be able to afford a decent meal or pay the overdue water bill...by buying my books!

GREETINGS TO ALL THAT HAVE MADE IT BACK!  
It has been a long, dangerous blight, fraught with strife and many of you may have come face-to-face with your very own mortality.

Fear NOT for Emil as from what I have been told that the restraining order against Emil (in both Heaven and Hell) is still very much enforce and they seemed to be in no exact hurry to deal with the likes of someone like him ever again...

Yes, for sure!

And thus it would thus seem that Emil

# WTF??? EMIL WHO????

seems forever destined to walk the still vacant streets, haunt the still ghost towns that we have made of humanity's greatest forts of culture and civilization in this year of plague.

OH Well...couldn't happen to a nicer guy...! While many, here at WWVG especially, see this as a mixed blessing in the fact that Emil could be left behind, that he will not be able to pester us in the afterlife as he is... destined to roam a dead planet as some kind of vampire or (most here would compare him to) a mindless zombie

(Sorry Emil...Remember what you taught us about the Mantra of Hell: "The truth is the truth...!") while a rare few (Emil Fans...maybe?) applaud this as proof first of an afterlife and then, that you shall have no shortage of Emil in the many years to come...OH MY!

Friends! But, be careful of what you wish!

## LIMIT SEATING – BOOK TODAY!

While we are NOT endorsing Emil nor this scatterbrain solution to the never-to-end Virus Lockdown Plague as it is more seemingly based upon the 1980's movie series "Back to the Future" and not on any actual science this side of Darpa's Black Ops.

Emil insists that he did track down one Dr. Brown and has secure the blueprints for a working time machine several years ago.

I do vaguely remember Emil writing something about this but, we are hard pressed to get Emil to realize that this was just a popular movie from the 1980's...to show you how serious we are...we wrote to Michael J. Fox's Agent to see if Michael would give Emil a call to personally explain that "It is all just a movie, dude!"

While his agent was very open to doing this; the whole thing fell apart when he mentioned Mr. Fox's standard fee.

## LIMIT SEATING - BOOK TODAY!

I have come to realize that unless I take critical action to change our present paradigms with our current Virus Plague Lockdown imprisonment at the hands of corrupt politicians, greedy corporations, Wall Street Cronies, before my little buddies with the CCP take over the world and we all become like the Uyghurs - hidden away in some desert FEMA Camp in Utah working 16-hours-per-day making counterfeit NBA Nikes to restore our social credit score and ultimately be able to rejoin proper society as a totally re-educated denizen...

## "Thank you CCP!"

I saw all this over on the Yubbertuber and it has is troubling me greatly as I have been informed that my personal social credit score is at minus 10,000 and this leads me to believe that I would die in a FEMA Camp

# Emil

## LIMIT SEATING - BOOK TODAY!

Long before I could ever work that score up. Just look how long it takes to get the banks to raise your financial credit score.

Over a year ago and like most of you that do not follow the "War Room" Pod Casts on a regular basis, I never saw any of this stuff actually becoming real life but, I did have a chance meeting with Dr. Emmett Brown (you know the guy who developed the first Flux Capacitor and built the first working time machine since the time of HG Wells in the later days of the 19<sup>th</sup> Century) in a city park. Seems he fell on hard times?

Long story that I covered in several of my previous books so, there is no need to revisit here unless I end of several pages short on finishing this book.

After endless hour of negotiation's with Dr. Brown I was able to secure the actual tech drawing of both the flux capacitor and the time machine for what I must admit was

rather a princely sum especially for a Hobo Tourer as myself but, thank goodness you don't need two kidneys to live a normal life. OK! Campers!

I now understand and have been educated by one of our regular, fellow readers from over in Japan that the same tech drawing are on the "Back to the Future" Fan Webpage for like FREE!

Let's not get into the weeds here on this topic and for all of my counter-readers (those angry Vivian WOKE TIWT Warrior Haters) Don't respond as you know you are haters...

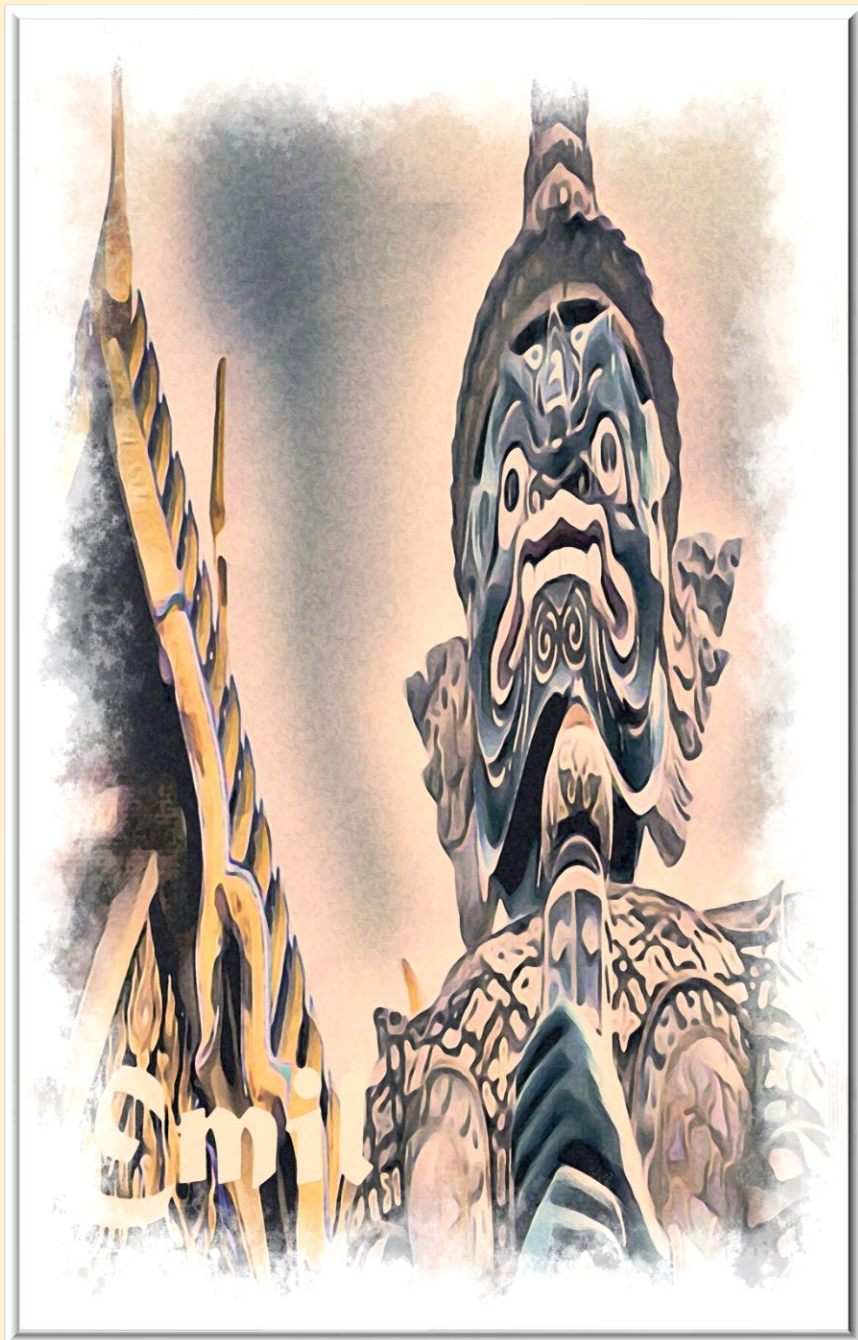

I understand that it isn't your fault...you just don't know any better having grown up safety cocooned in the Safety Zone of your mom's basement without ever knowing the real world or having been given a dumbified education by teachers who couldn't make it in the real world either -I know as I was one for over a decade.

## LIMIT SEATING - BOOK TODAY!

A year ago, we believed the lies as they looked us in the eye and without even a slight studder; they told us that they needed 15 days to save all of humanity from it's greatest treat since the Plague of Justinian.

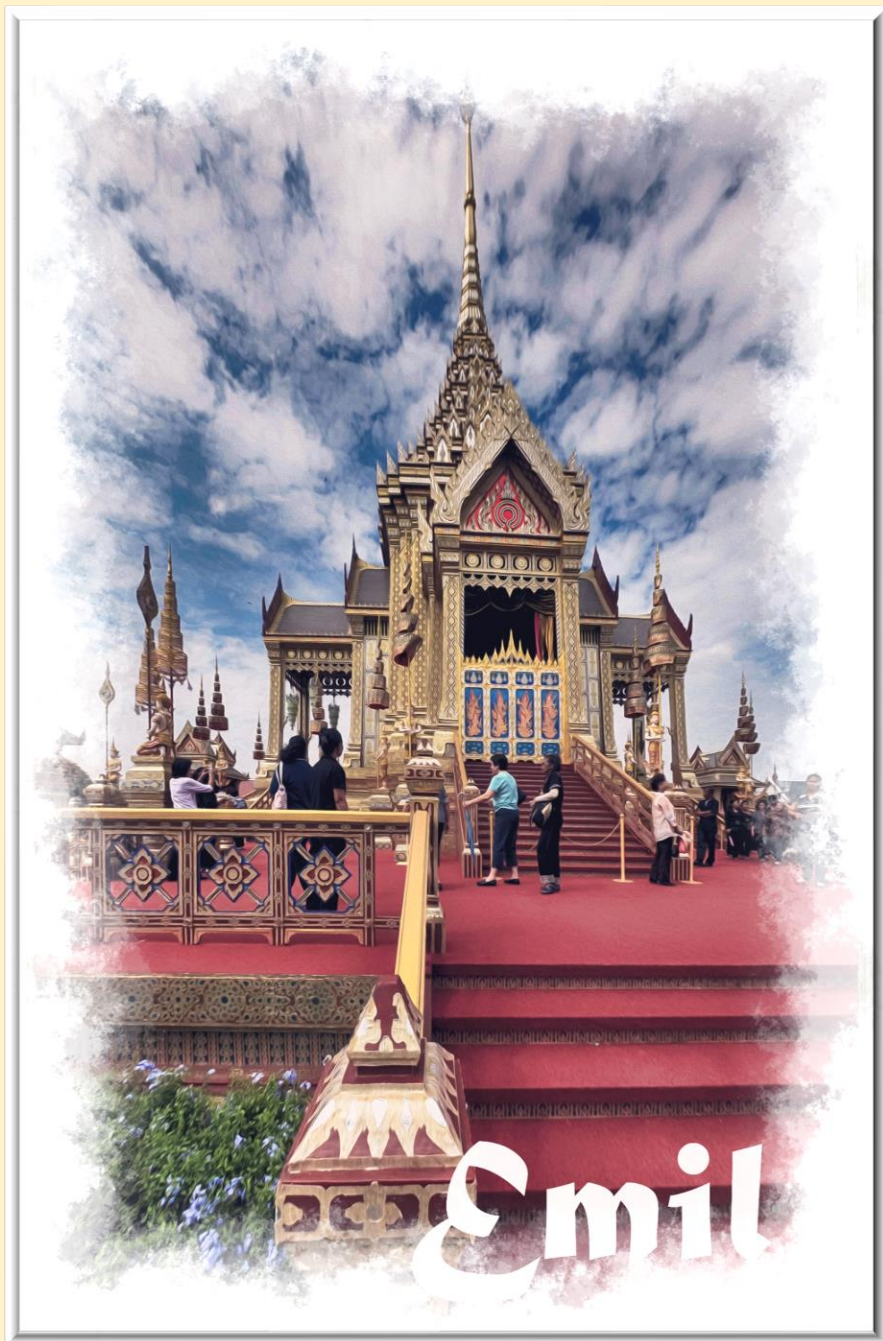

We all nodded collectively "Yes!" when they came back and said that they needed to "a tiny bit longer" to flatten that damn curve and we ignored the logic of closing all the churches while liquor stores must remain open as our officials agreed with Marx (not Groucho) that religion and liquor were both opium of the masses but, realized that liquor was a tax revenue and God was tax free... besides, God only had bingo and the liquor stores also sold Lotto Tickets - which funds many of the things that these políticos couldn't get the community to vote or fund.

Emil

## LIMIT SEATING - BOOK TODAY!

Trust me, I am the first to admit that unlike my CCP Friends, they didn't nail your door shut and leave you to die in Wuhan...

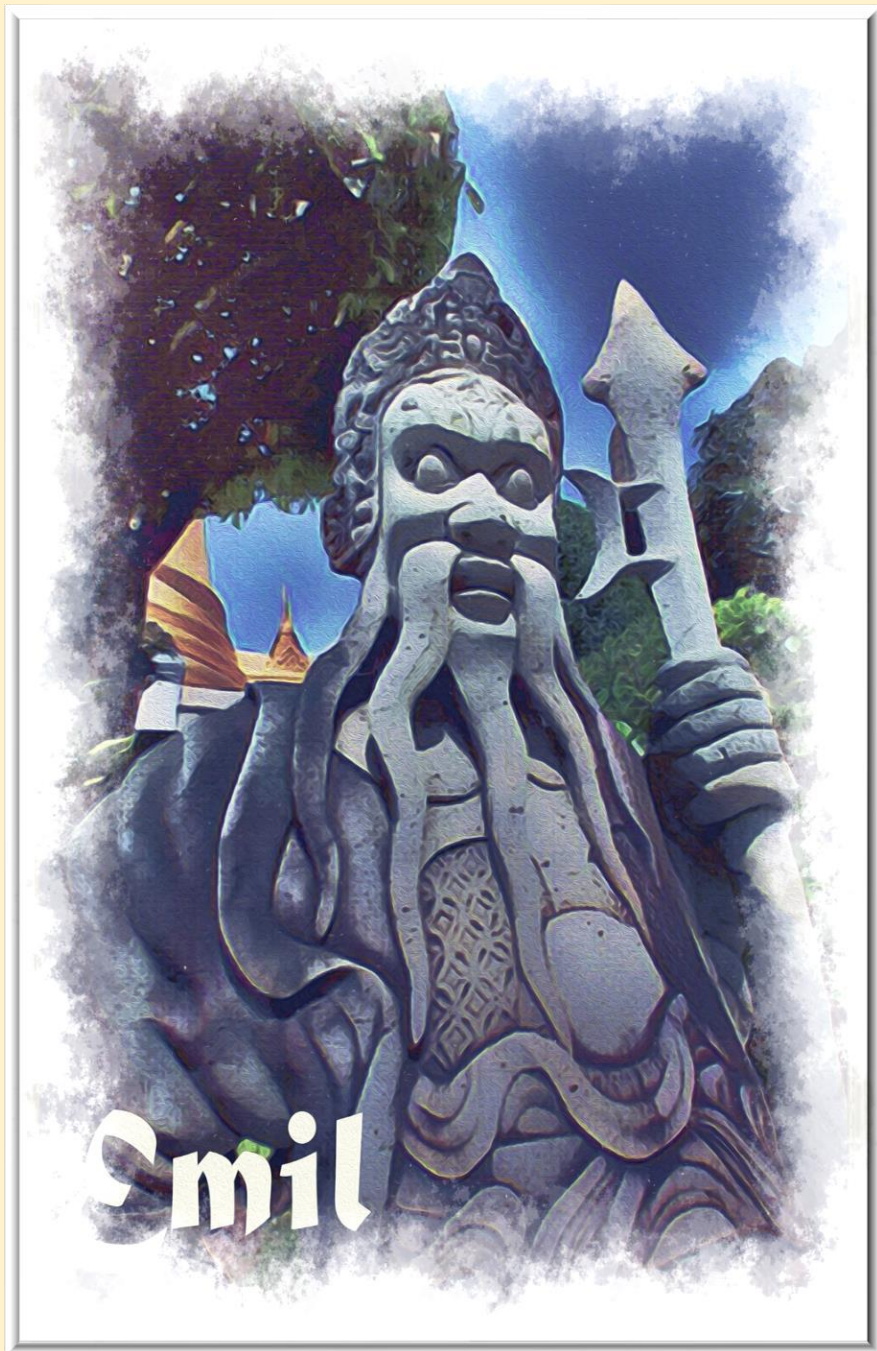

None the less, we are more than a year after "The Lie" with many more bolder lies after that, in an endless wave of government approved fear porn that rates up their with the very finest of Coast-to-Coast AM's scariest guests and even, that scary CDC Lady crying about "It might be the end of the world!!!" (seems that she like so many of Pappy Biden's cadre of humorless, socialist accountants watched too many episodes of "Twelve Monkeys" - great show but is this the same????); many of us have come to realize that this will never end on it's own not until the vast silent majority is poked so hard that they will rise up in something like the Occupy Wall Street but on steroids.

Emil

## LIMIT SEATING – BOOK TODAY!

I thought that when the Probationist Governor of Michigan banned beer sales along with football...I thought that this was a mile too far and that the common folks with rise up.

Nupe! Everyone just sat on their hands!

WHY was this? What was happening?

The corrupt políticos, our Tech Overlords and their vast army of angry, lusting to "CANCEL" any or all for not totting the accepted/approved corporate line...any who did not reading off the correct social script; they had made their point that they can not be stopped any more that the Brown Shirts of the National Socialist could have been stopped by Berliners in 1934.

They have shown that if you dare to raise questions (little-a-lone object) or have even the slightest negative notion to this Dawn of the Great Social Reset; they can/they will show up at your home at midnight

with bullhorns and spray paint, break windows or set fire to your home/business without regards to who might be trapped inside.

Across this formally great land, we see these Kristallnachts, both large and small...acted out almost nightly somewhere across the country...staged by the hundreds...by the thousands...targeting the common folks in order to prove that they can/will reach out and touch all offenders regardless of how small or unimportant...No warnings!

Full frontal assaults that have taught everyone that it is better for property values, your mortgage and even your kid's Facybook Account to (as the wife and kids plead) "Dad just take the knee and lets get back to living a somewhat normal life, again!"

I can say this without fear as I have (long

time ago) been shun/cast out from proper society and as a Jesuit of Truth, I fear not these WOKE Demons of the Untruth as I know it as a simple fact (etched into the stone columns at the gates of Hell) the

## Mantra of Hell:

“In the end, the truth is the truth!”

WOW!!! What brought on all that???

Sorry, campers! I am just disheartened that we are so cursed to relive the social disasters of the 1930's and I do fear that when (in 50-years or so) the next generation asks why we didn't do anything to stop the Dawn of the Great Social Reset; our answers will mirror the excuses that our relatives had as to why they didn't attempt to stop the Nazis.

Look...Haters...don't post...I am not calling you a Nazi (although you often call me

one when in fact, I am more a Libertarian Communist – not to brag) but, I am saying that the nation is traveling a 100-miles-per-hour down the road and there are but a few people that are desperately trying to get your attention to say “the bridge is out!”...

Remember what happened to the true believers, the street fighters of the SA...in the end their patrons/masters turned on them in “The Night of the Long Knives.”

So...to all my hater brothers, sisters or non-committed...to all the WOKE TWIT warriors and their fellow travelers; Eric Rohm never saw it coming...never thought that his loyal street fighters would every be seen as a liability to their politico masters and wasn't prepared when Hitler's most trusted aide (Rudolph Hess) would oversee their complete slaughter in what history

romantically refers to as:

“The Night of Long Knives.”

I hear you! I know that I am just an old fool who doesn't understand how important your Antifa Street Fighters are to your político and corporate masters (they pay your bills...don't they?) but, you know what; Eric Rohm actually said much the same to the Berlin Press Corps on the 29<sup>th</sup> of June 1934 (the day before the Nazi Purge). Just saying...might want to read up...do you have a “Prepper” Plan to deal with this? Again, sorry about my rant but, I am frustrated that I see where we are going with all this and...WAIT!

I have heard all of this before!

20-years ago, I remember talking with this dude by the name of John Titor in an early chat room (what they had before the TWIT and Facybook came along) where he

## LIMIT SEATING – BOOK TODAY!

claimed to be a time traveler from the not so distant future (2036) and had been sent back in a time machine (that looked not unlike Dr. Brown's but was a Corvette Stingray) to secure a computer part for (if I remember correctly) a 1970's IBM 5100. Never got the importance of an IBM 5100 to the survival of the future...like, they have a time machine but don't have a Radio Shack?

(Little did I know then that Radio Shack would indeed not exist in the future as they went bankrupt in the mid 2010's...they were once the Holy Grail of Electronic Stores.)

Really nice guy but way too chatty for your average time traveler and seems to have never heard of the "Prime Directive" as he was constantly talking about a future that was rather unappealing and far from inviting but, thank goodness that I still

Emil

## LIMIT SEATING – BOOK TODAY!

believed in those Damn Mayans with their 2012 being the final wrap of humanity and for that matter the whole world.

I can swear to this but, I never saw him as a Time Traveler as I didn't believe in that (Sorry Dr. Brown!) but, after much thought and several binge watching of the TV Show "Sliders" on Blue-ray DVDs...

I came to see him to be much more like a slider (a traveler in the Quantum Mechanics proven science of multi-universals) which made much more sense to me as he did remind me of "Slider's" Crying Man...didn't you?

He finally disappeared in late 2001 and even the Coast-to-Coast AM People wrote him off as some kind of kook or flake...and as time marched off into the new century and especially since his dire warnings about Y2K were routed into a complete letdown bust, most people paid his

Emil

## LIMIT SEATING – BOOK TODAY!

predictions as little attendance as they had "Sliders" Season 5 Release on DVD.

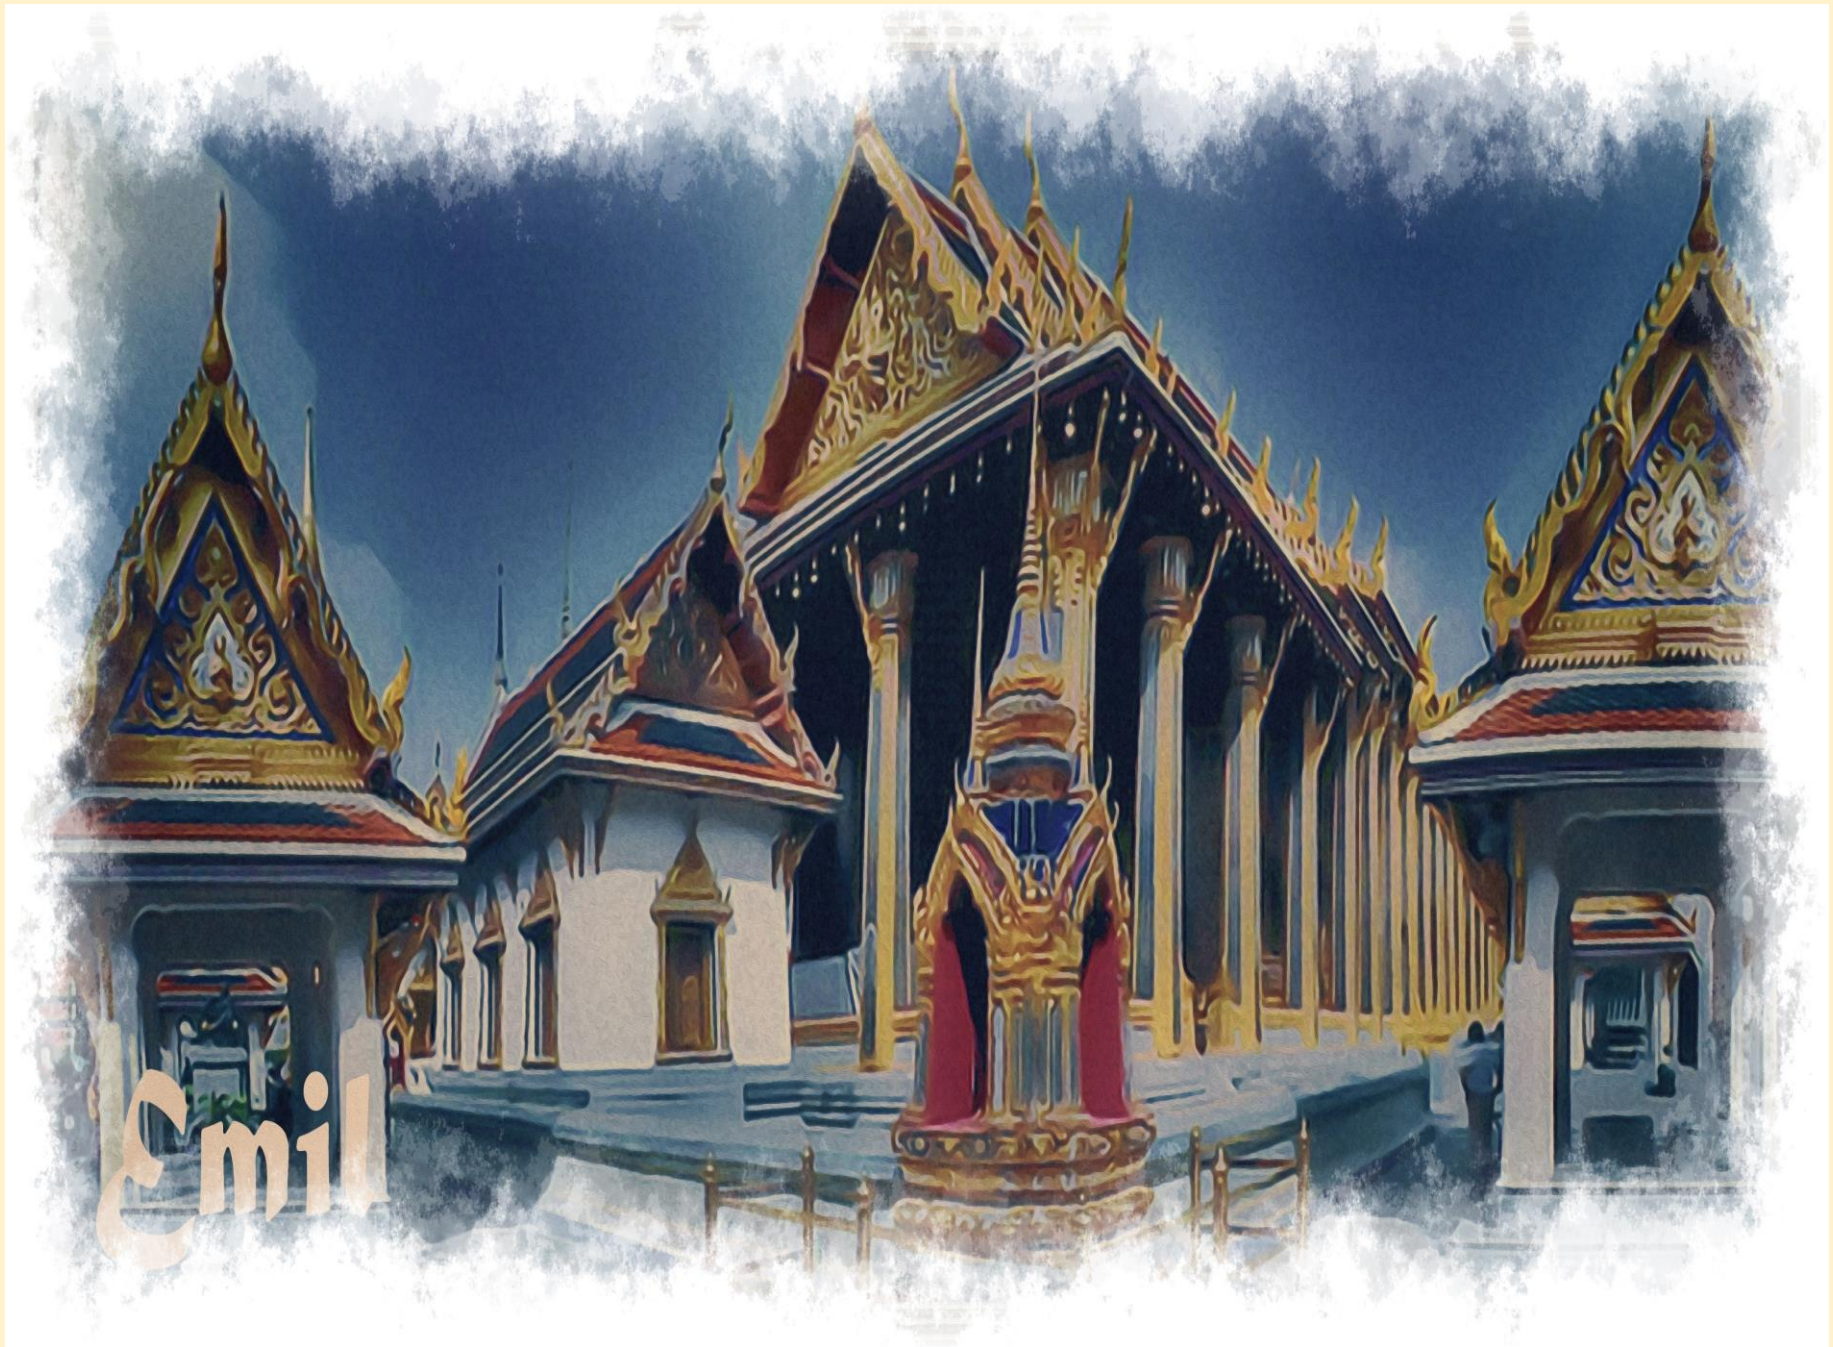

To be truthful, since I believe if he was kind of the real traveler but just not a Time Traveler; it made perfect sense that things might turned out different than he predicted as he had come from an alternate universe where it may have been a big thing.

Haven't thought of him for quite a while. Well not until 2016 when there was another guy making the rounds and billing himself as the "REAL" John Titor.

He had a better story about being a Super Soldier (genetically engineered) and space traveler who had time machine, space ship right out of the "Jetsons."

His story had more depth and adventure built into his narrative and it should – as he had a big time book deal and was making the Paranormal AM Talk Shows

## LIMIT SEATING – BOOK TODAY!

to promote his book...It was said to soon be a Marvel Movie?

Those guys at Coast-to-coast are good!

They got him to commit to his own "End of the World" prediction for 2017 when the Iranians would use the missing Malaysian Airline (that wasn't at the bottom of the Pacific but, according to John had been hijacked to Afghanistan) to nuke Israel and then, he added New York and Washington to the Top Ten List of Iranian Sites to Nuke.

Well...like that didn't happen...Did it?

If so, I must have been watching CNN and I just plain missed it.

After that Coast-to-Coast broadcast he just kind of vanished too but, you can still find an occasional copy of his book on the discount shelf at the Dollar Store.

## LIMIT SEATING – BOOK TODAY!

The original John prediction thing seemed way too fantastic as he told about an America so bitterly divided that there had been a new civil war and in which he was in a militia (Shotgun) unit from near my dear old homestead in Central Florida. Many say that this story was his downfall as literally no one could envision Americans being so angry that they would ever start a civil war unless say the impossible was to happen and they banned beer, canceled football and/or NASCAR.

Then in 2020, the Governor of Michigan banned the sale of beer during the pandemic, 2020 saw Football first canceled and then played a limited (no contact sports) version and, NASCAR Drivers were virtually racing in a modified version of "Grand Theft Auto" - the one which required that you take the knee to start your engine.

## LIMIT SEATING – BOOK TODAY!

This is when I went back to reread John's predictions while mixing into my analyze the fact that if he had come from an alternative universe then the dates would not necessarily match up - why didn't the Mayans come up with this excuse after their great big zero of 2012?

In 2021, I see an American so bitterly divided as our country (not unlike his) was beginning to fall apart not on race but, on State's Rights (which means that the states resent the Federal Government's seizure of power preventing the states from governing themselves) and with that the end game result of states leaving the union to become independent nation states like with Florida and Texas.

If he is right about the events but was off on the timeline because he came from an alternative universe then, we are doomed to fight what may become a drawn out

conflict for three or more years and only to end in nuclear conflict with Russia not Iran and definitely not China as why would they nuke the country that they already own lock, sock and barrel?

Will this happen?

If you would have asked in 2002 when it happened on John's World then, I would not be kind nor PC about my response...

Thank you very kindly!

But, given the current reality of how Bat Schiff Crazy the world has become; I fear for the worse and this is why I was glad that

I had invested the time, the logistics and the expense of tracking Dr. E. Brown down and securing our own time machine (interdimensional transport machine – remember I don't believe in actual time travel or warp drives for that matter either) for us to build and transport love ones and

family to an alternative planet where they will be safe from the coming destruction.

In an effort to be totally transparent with you Campers; I must say that my corporate slave masters like totally ignored my numerous requests of R&D Funding to actual build not one but a fleet of Dr. Brown's Time Machines as most people want to take a kid or two, a dog or cat but, maybe, leave the ex-wife to make her own faith in the coming Nuclear Winter (So they did have a plan to stop Global Warming after all?).

Even after I scaled back the size of my request figuring that once I build one then, everyone would want one to; all Sean and his assembled Socialist Accountants wanted to talk about (other than if mental health was covered by the company's insurance plan) was the cost involved...granted Flux Capacitors aren't

cheap to build nor is the cost of used DeLorean Cars but, I did mention that I knew a guy in Central Asia who could cut us a killer deal on used plutonium.

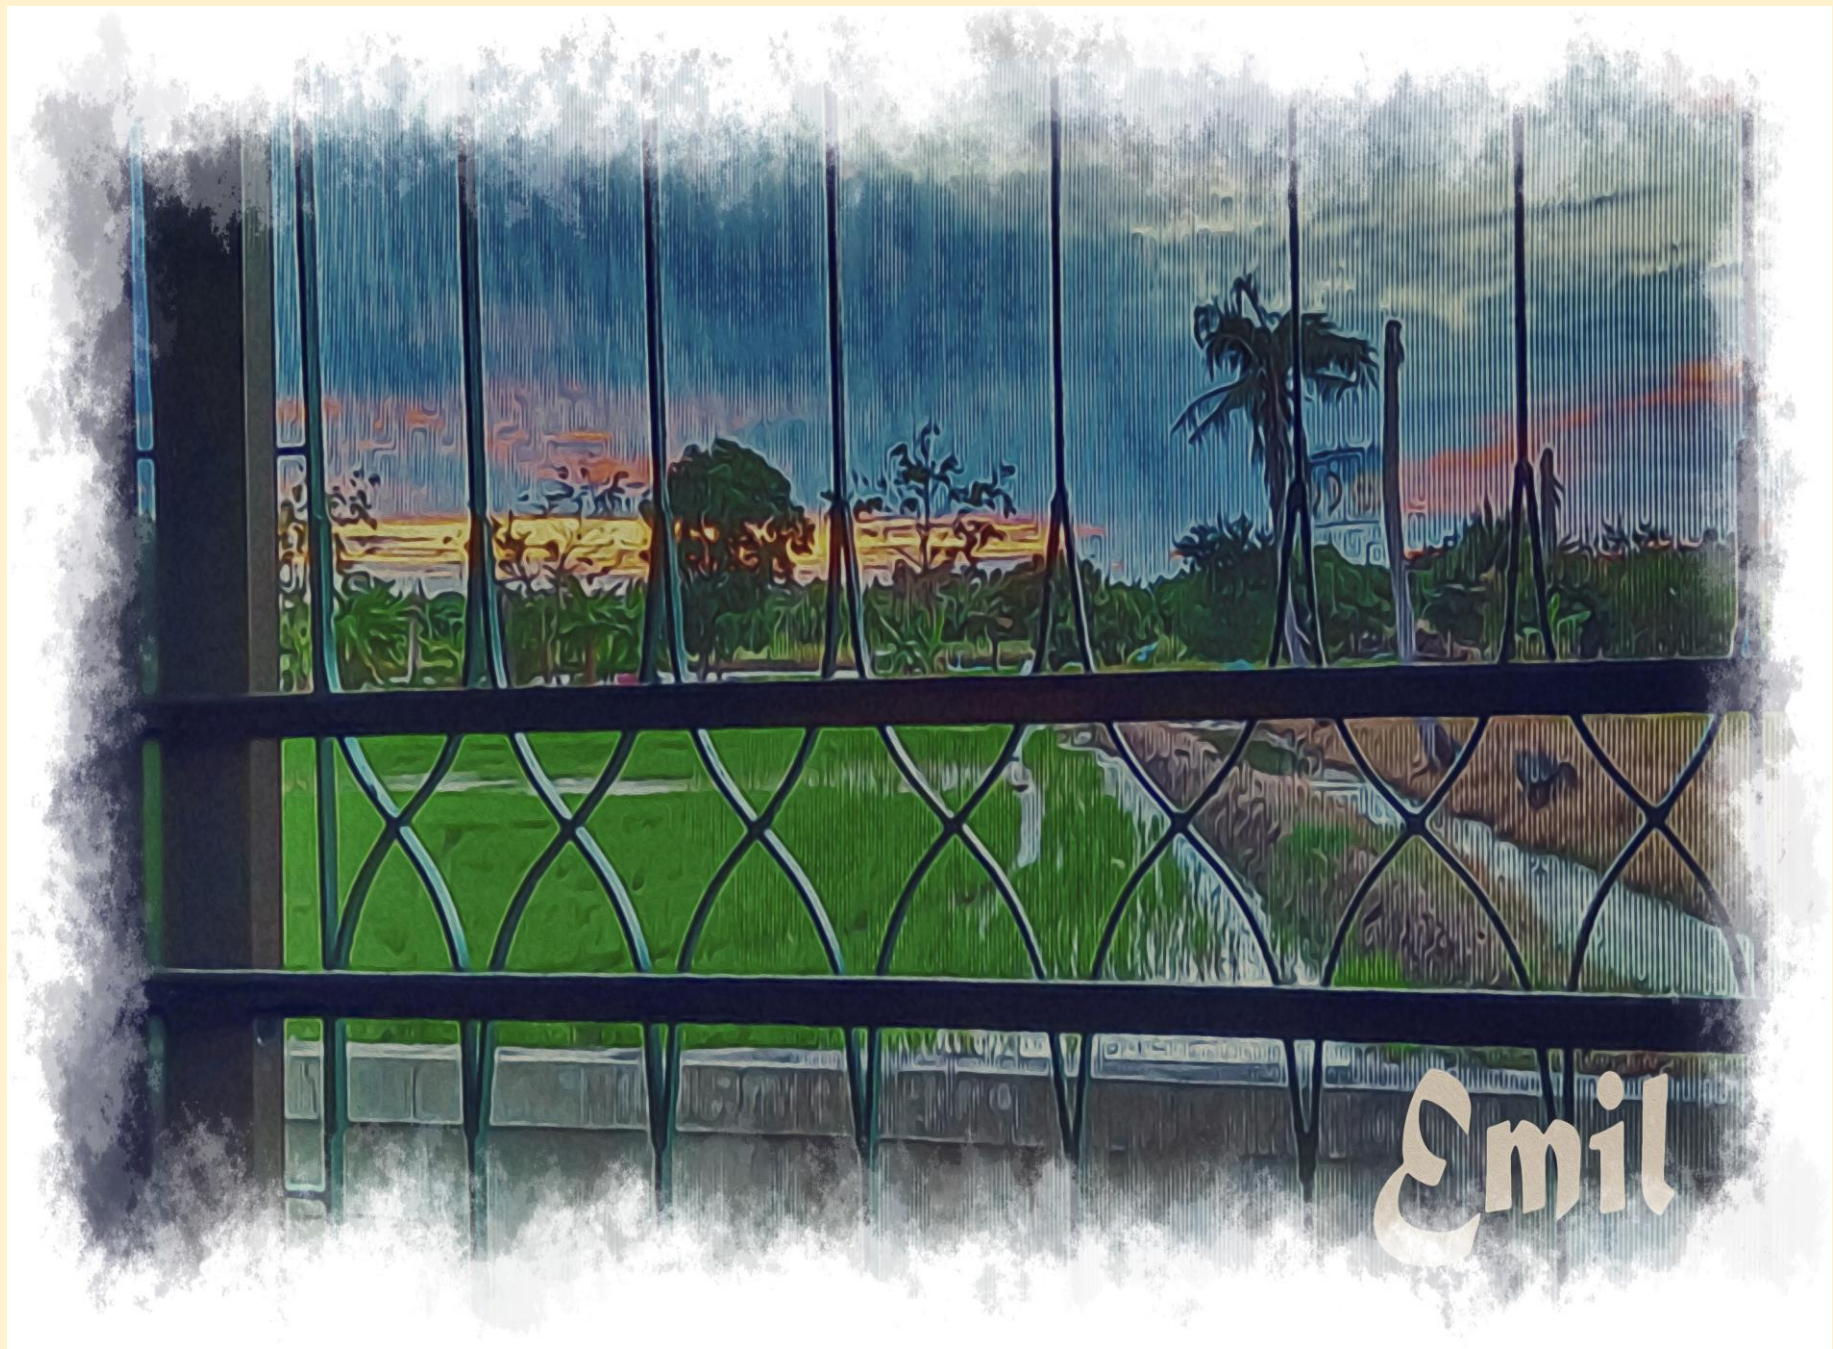

Now that I have you more up-to-speed on what's going on and you understand the sense of urgency involved in the condensing timeline(s) before the Schiff hits the fan; I must also say that there are several restraining orders in place that prevent me from telling you as to our current progress especially after my "GoFundMe" Page was taking down without merit or proper cause.

I heard you ask:

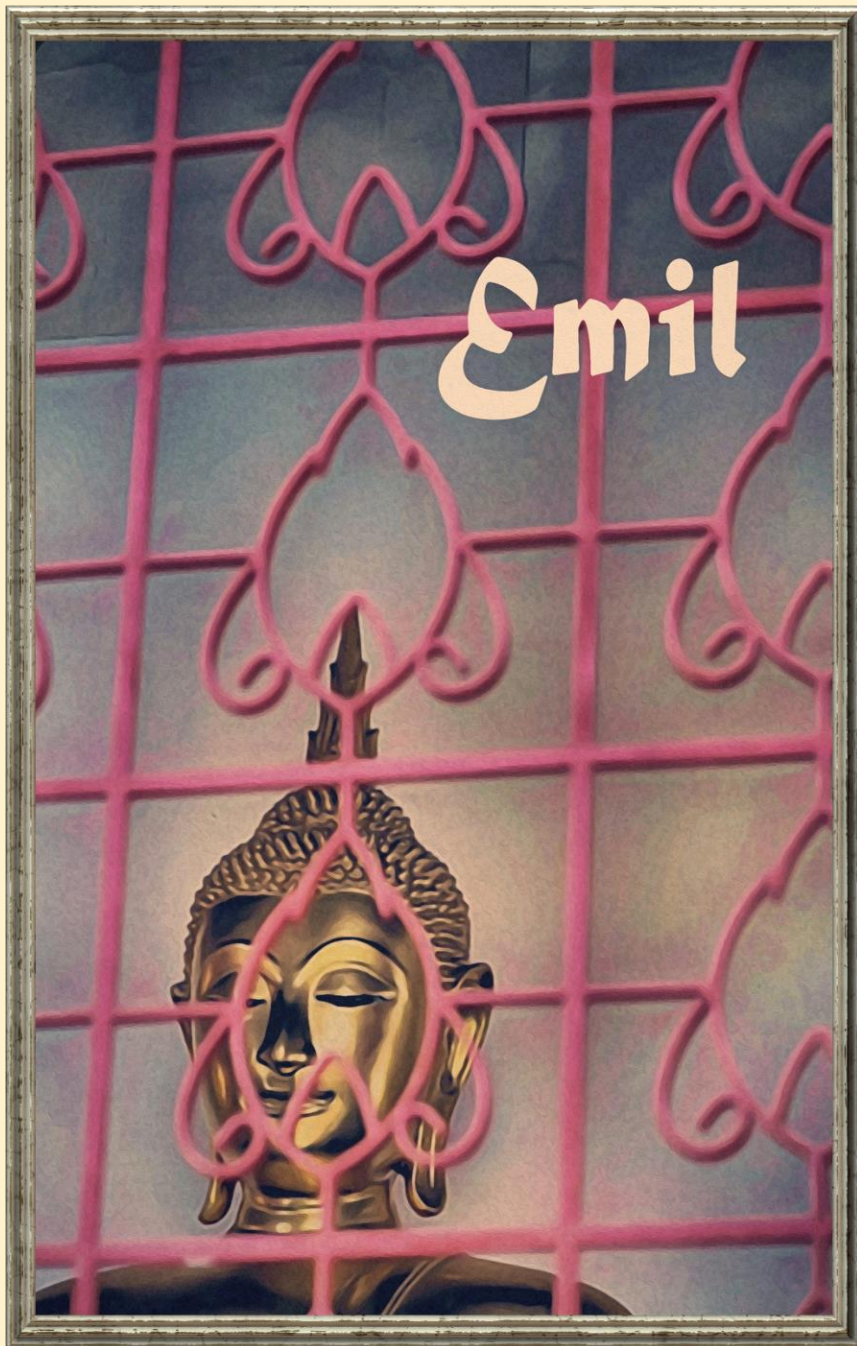

"Where would ya first go or what would ya first do after the first prototype is finished?"

First off campers, this is not a time machine but more so an alternative universe transport vehicle but after much thought...

## LIMIT SEATING – BOOK TODAY!

If it were though, I would go back to a time when we lived in total freedom...to where a person's wealth is based upon the trueness of their character NOT the color of the skin as we have reverted to some Bizzarro World edition of a reverse Jimmy Crow and where this New Dawn of the Great Social Reset starts to resemble 1948 South Africa (at the dawn of Apartheid) or a bad remake of the classic movie "A White Man's Burden."

I really desire to return to a time when Martin Luther King's concept of equality was the norm, not Pappy Biden's reverse version of FW De Klerk's Dream of minority rule enforced by his WOKE Warriors...the Shock, street-fighting thugs of Antifa and in the end; his creation of a bitter race war that would have never happened...all at the bidding of the CCP.

I WOULD GO TO... BANGKOK IN 2008...

Emil

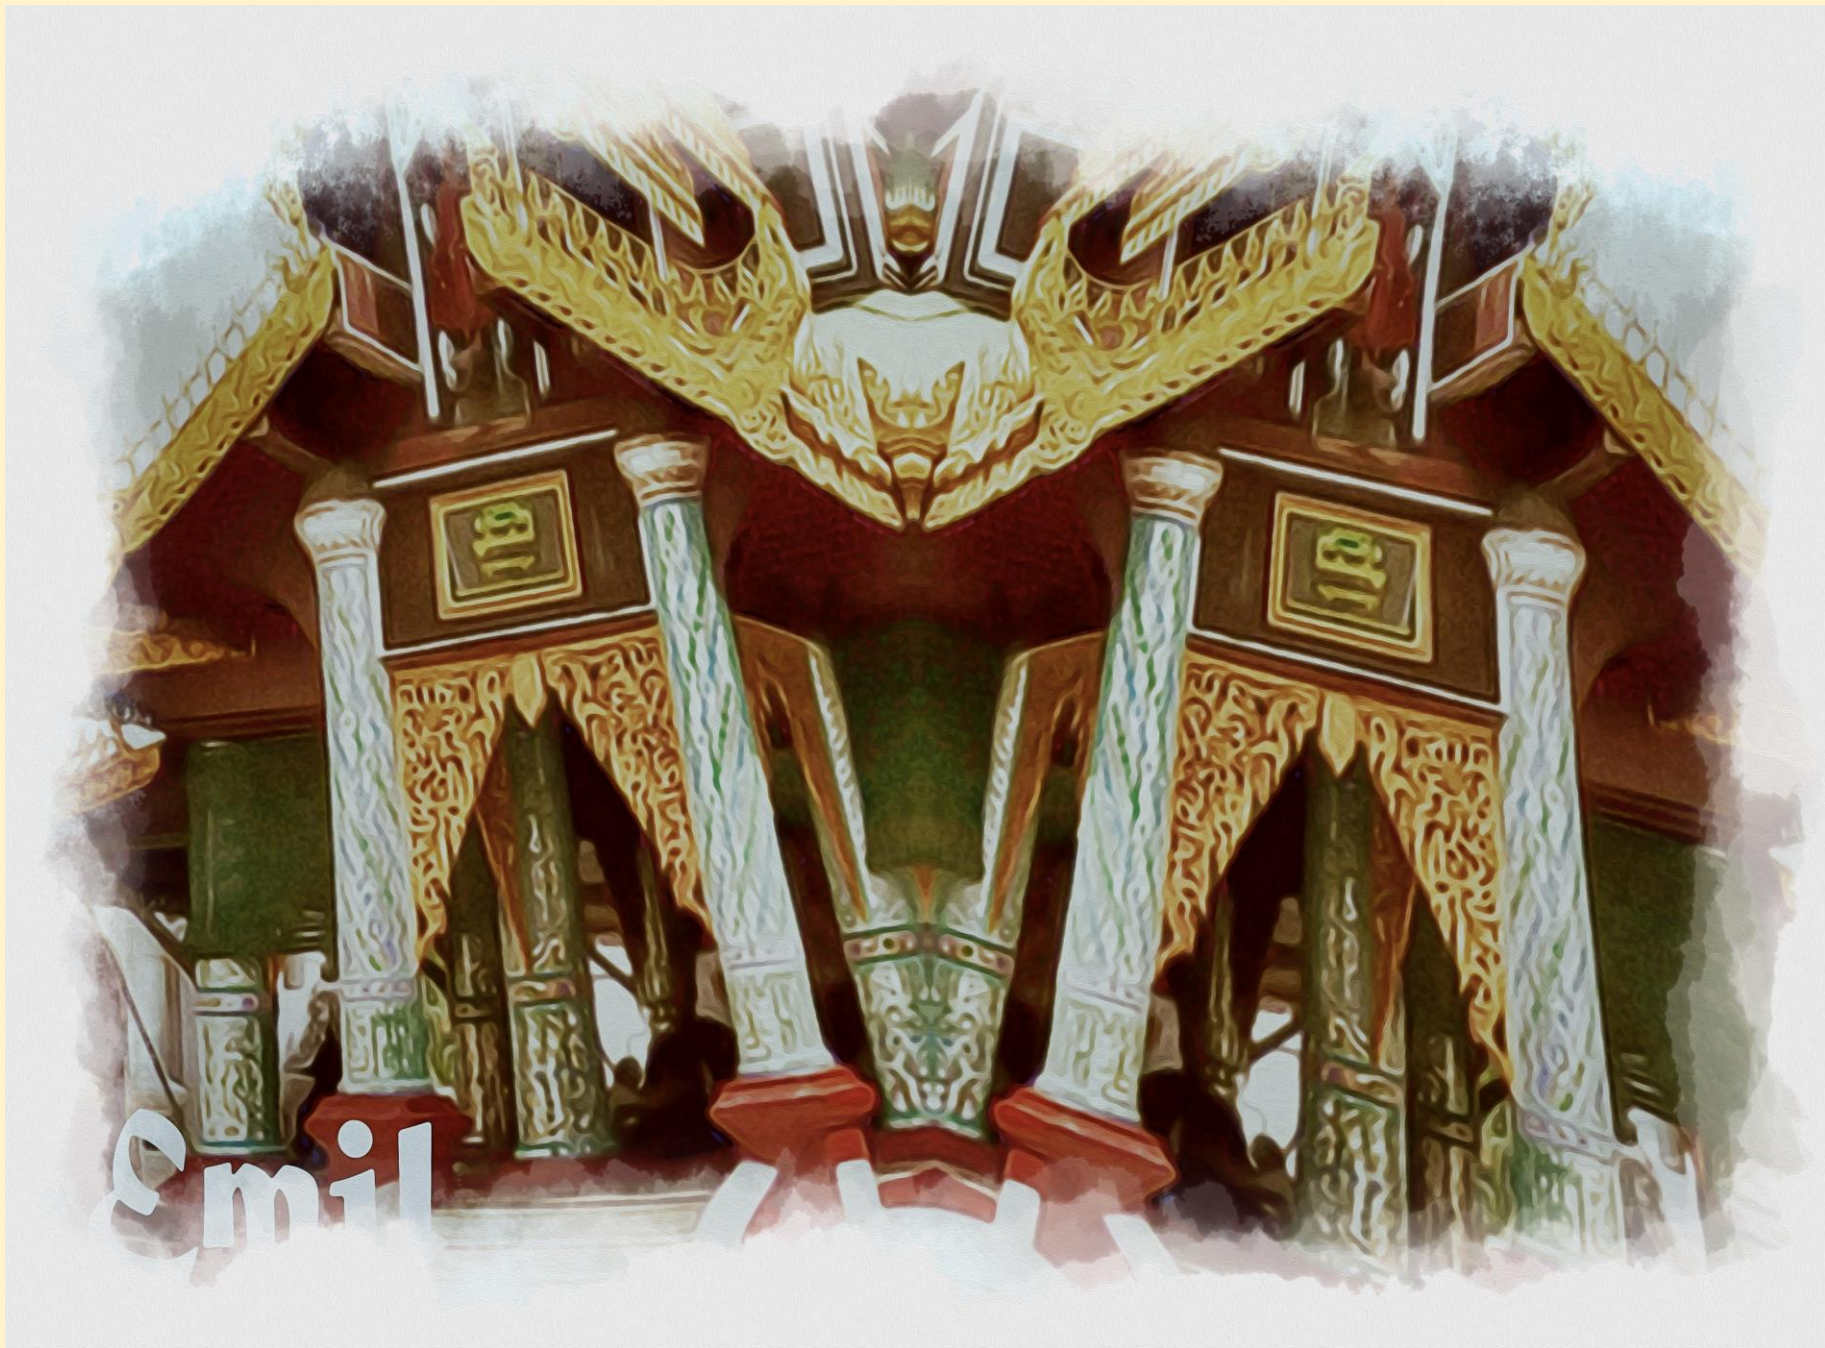

## A SUNNY SUNDAY IN BANGKOK 2018

2008 was a true watershed year for many of us...it was a time when America showed how NOT racist (to its very core as most of Pappy Biden's 80 million dead voters or any of his angry, street fighting warriors of his new but not so Black, the like totally Woke revisioned of the old Black Panther's Party - staffed with mostly skinny little white kids dressed in ritual uniform of a black hoodie and matching backpack popular known on CNN as the Cultural Warriors of WOKE Antifa would have you believe) as it really was by electing its first African American President by a large percentage of the nation's voters who saw him not by his race, out of white guilt or Reverend Feraghan but, by the sheer promise(s) that he offered to bring America together

or maybe, he was just much better looking than Jackie Robinson or for that notion than Grand Pappy McCain and believe me, even our Little Sister Shara – truth be told.

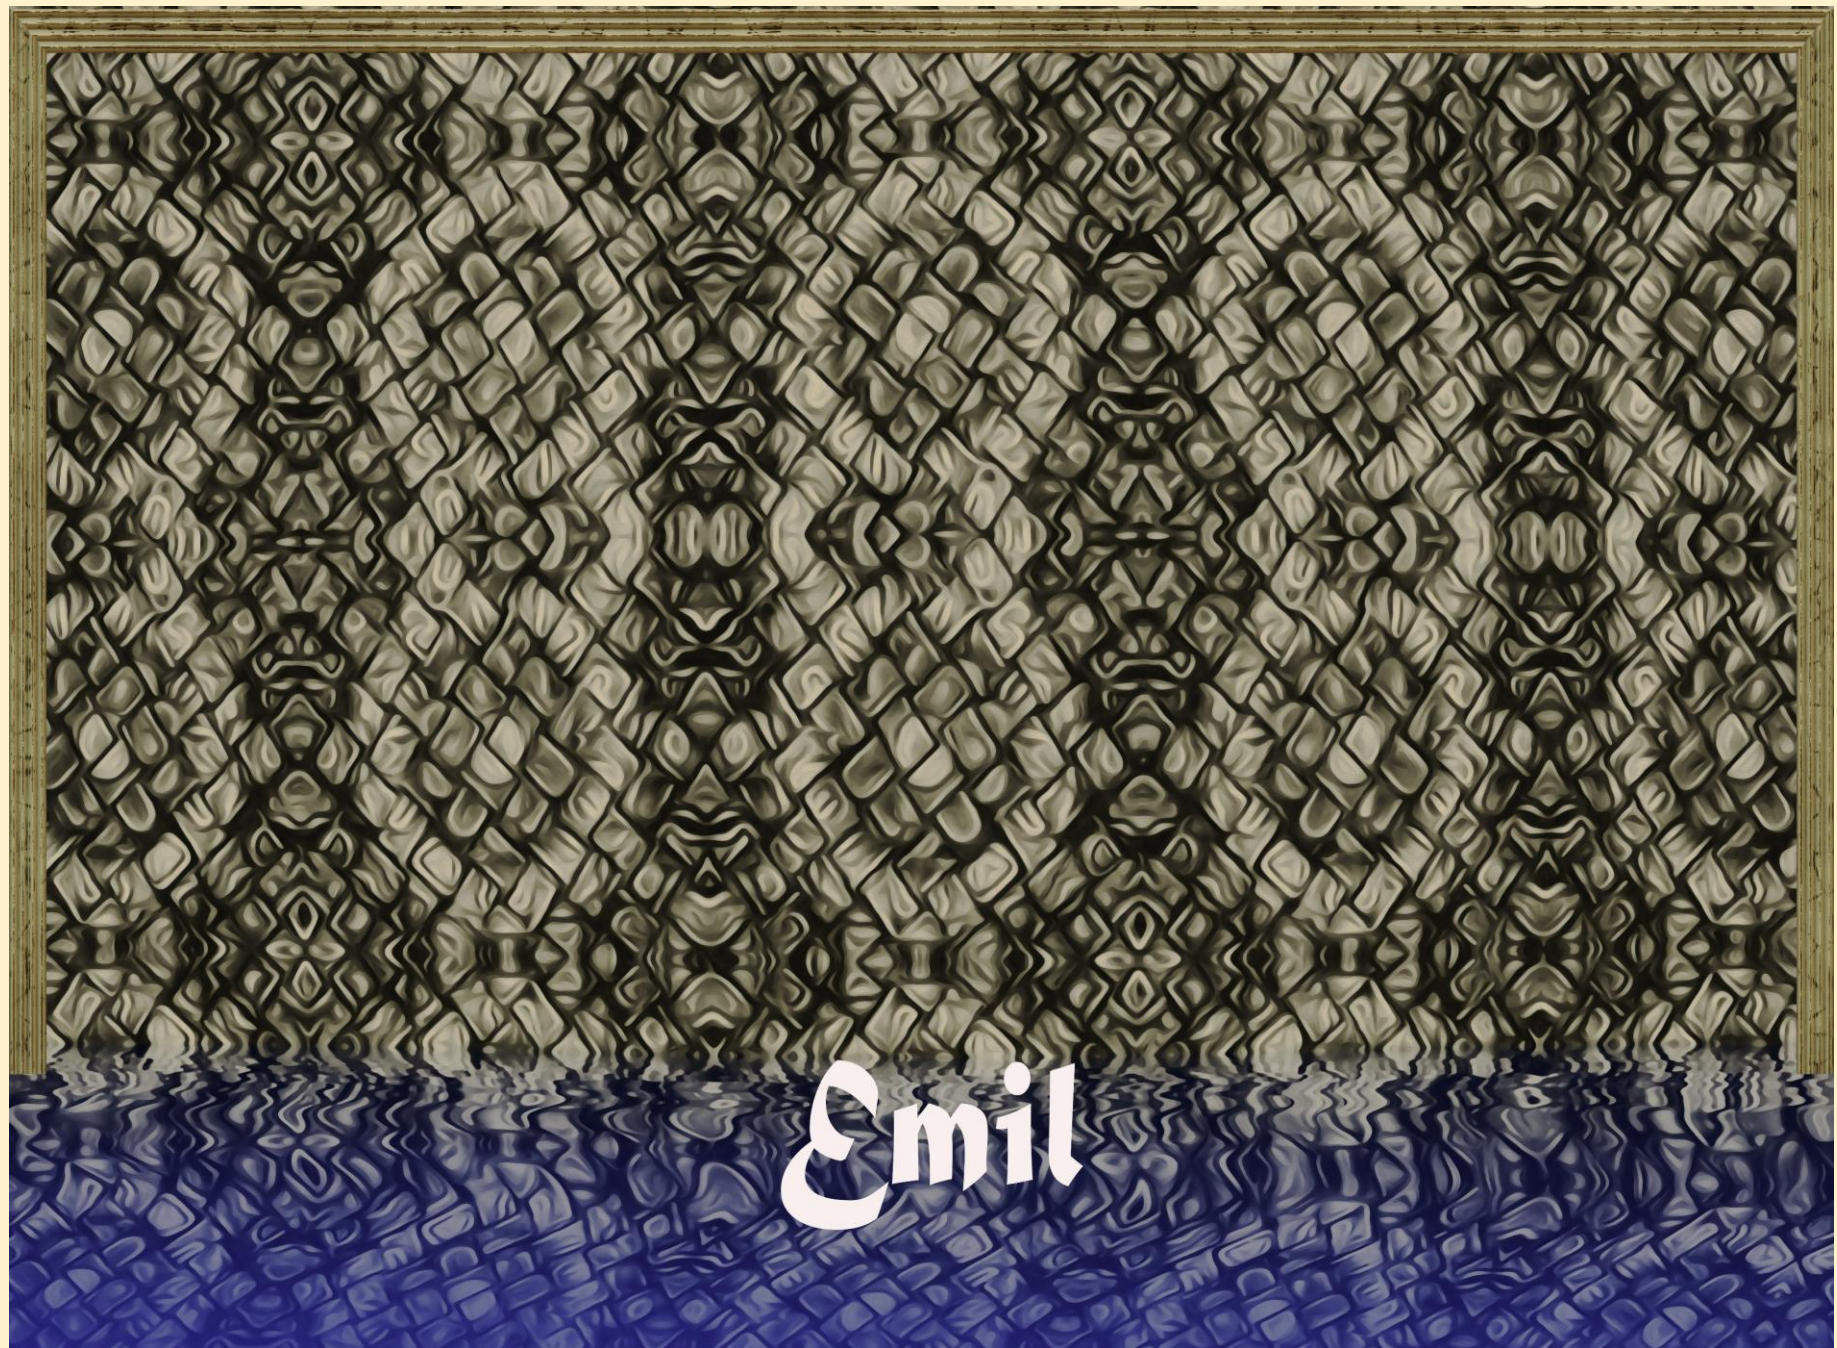

That was also the year where I put an 18-year civil service career at ultimate risk by standing up tall against a racist manager (a Latino Guy who didn't like Blacks) and in the end, I lost it all because his brother was better connected to leadership than I would ever be as a old, pale-coloured man.

OH WELL...!!!

IT WAS JUST A 18-YEAR CAREER!

2008 was also the year that I got multimedia work to elect our first African American President by creating a website

Emil

with advanced (for the day) animated videos against the old guard (white guy) that was running against him (John McCain).

I made a little money but, it started me on the path to where I am today (old, broke, and yet again, an economic field slave to my Corporate Slave Masters @ Plantation WWWG) where my main slave masters are WWWG's Cadre of Socialist Accountants who are also former CCP Accountants who got banished for being so...like totally mean/cruel/corrupt).

The webpage is still up on YoubertTubber under the user name "norrthslope21..."

The video's that you see today are in sad fact, dumbed down...watered down versions of what was originally created as

Emil

## A SUNNY SUNDAY IN BANGKOK 2018

the RNC and Governor Mitt (you know that you can't use his name in videos...I didn't at the time until I got those register letters from his lawyers will threaten multi-million dollar lawsuits as it seems Mitty had copyrighted his full name) tried to like totally "CANCEL" me...to utterly banish me from all social media (which wasn't that much at the time... AOL / Myspace / Yubbertubber / BBS Bulletin Boards - if I remember correctly?)

I had developed an innovative technique of facially animating photographs, mixed it with a voice-corrected soundtrack and compiled their actual comments into a single, photo-realistic video.

the RNC and Governor Mitt (you know that you can't use his name in videos...I didn't at the time until I got those register letters videos were way TOO realistic and many of their less than bright voters (THEIR TERMINOLOGY NOT MINE) might mistake these videos for actual news reports. Then, Mitty's people chirped in that I was in like serious copyright infringement over using his name and image without even paying them a proper royalty nor that I had a proper licensing agreement.

After much heated debate between them and the Corporate Thugs from Googlee about the true meaning of "FREEDOM of SPEECH" (which surprising did actually mean something in those days) I agreed to redo the video and to greatly dumb

2008 was also the first time I retired and I came home to Thailand...in fifteen years.

2008, I voted for Obama as I thought he was the best of the new generation and as I said before he defiantly was much better looking than Jackie Robinson.

In 2012...I voted for Dick Gregory as he was one of the smartest, common sense guys around and he very much needed

the gig as being an old comedian in America is a rather tuff trip! Sad that in the end, his health turned bad and when his cranky old manager keep insisting on his standard rate commission all conspired to prevent him from being our next president in 2016.

One thing of real interest that I soon discovered was that Georgie Bush (Remember the "Bring it ON" guy...NO!!! not the movie of the same name...like, really dudes?) and Charles Manson sound the same on tape...totally interchanged down to their West Texas Twang.

I was doing a video where Georgie was upset at Little Sister Shara about her rude comments she made about him at the

2008 VP Debate and I wasn't really wasn't happy with the soundtrack I had created but then, I found a soundboard of Charlie and by damn...they both have that same West Texas Twang to their voice that makes them sound like kissing cousins of one another but, with one important degree of moral, Kevin Bacon Separation: Georgie made Charlie seem totally bush league amateur by comparison and degree of the killing (this was before his current democratic rehabilitation of him as Michele's bubble gum chewing buddy and big time Trumpie Hater - well! His brother Jeb has never fully recovered 2016 but, the family does say that the therapy @ the rest home has improved him greatly).

The video was a hit and I still get hate

Can you still recall? Slightly?

Dry heat they called it. My rude dog response was always:

## DECEMBER 20<sup>th</sup> PRESS CONFERENCE...

**Seine LaGone:** Thank you ladies and gentlemen for attending this press conference by Emil. There has been much speculation as to legal actions and the potential of criminal action for violating the terms of a District 3 Federal Court restraining order and the sheer amount of effort by authorities here and in hell to keep this story for the light of day and the people of earth from knowing the truth.

Emil quotes the motto of hell "...the truth is the truth..." and Emil is here today to spit in the eye of a system ruled by clerks and accountants.

Emil will make a brief opening statement and then will field questions from the assembled press core.

In a final note, we sadly regret that CNN and even MSNBC has declined to cover this most important press conference but, we do welcome the Korean Home Shopping Network for being here and covering the event live as part of their Emil Sales Week and defense fund...

Again, we of WWWG Productions support Emil 1000% although we share no responsibility for any of the utter nonsense that Emil will present and thus, we do not acknowledge any corporate nor personal responsibility for anything that Emil says or does...with that said, we are proud to introduce Emil.

**EMIL:** Thank you ladies, gentlemen, demons and any angels here today....Hi there Gab!...I would like to express my personal thanks to the continued support of the Korean Home Shopping Network for their continued support and sale of my books available from WWWG Productions. I would also like to thank my editor for his brave stand of supporting my efforts to break the greatest story of our generation.

"Smoldering black smoke arose from every pile of rubble in what had once been the great Luciferian Capital and we ensured that none of made actual eye contact with the patrolling Heavenly Horde Militia as to not be stopped and harassed.

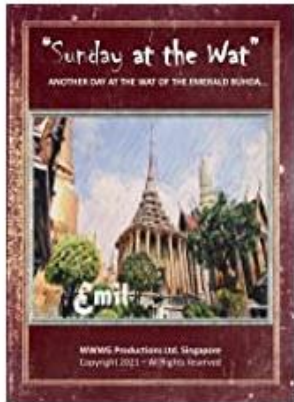

We passed through the wreckage to where we had set up camp and planned our escape from the encircling, victorious armies of Michael and his warrior clan.

They had won and we had been powerless to change the old Shaman's prophecy of us as the harbingers of the end of nearly a million years of the Luciferian Republic."

## "WELCOME BACK FRIENDS!

Are you scratching your head and wondering why after all my complaining about Emil's obsession with temples and the likes; why would

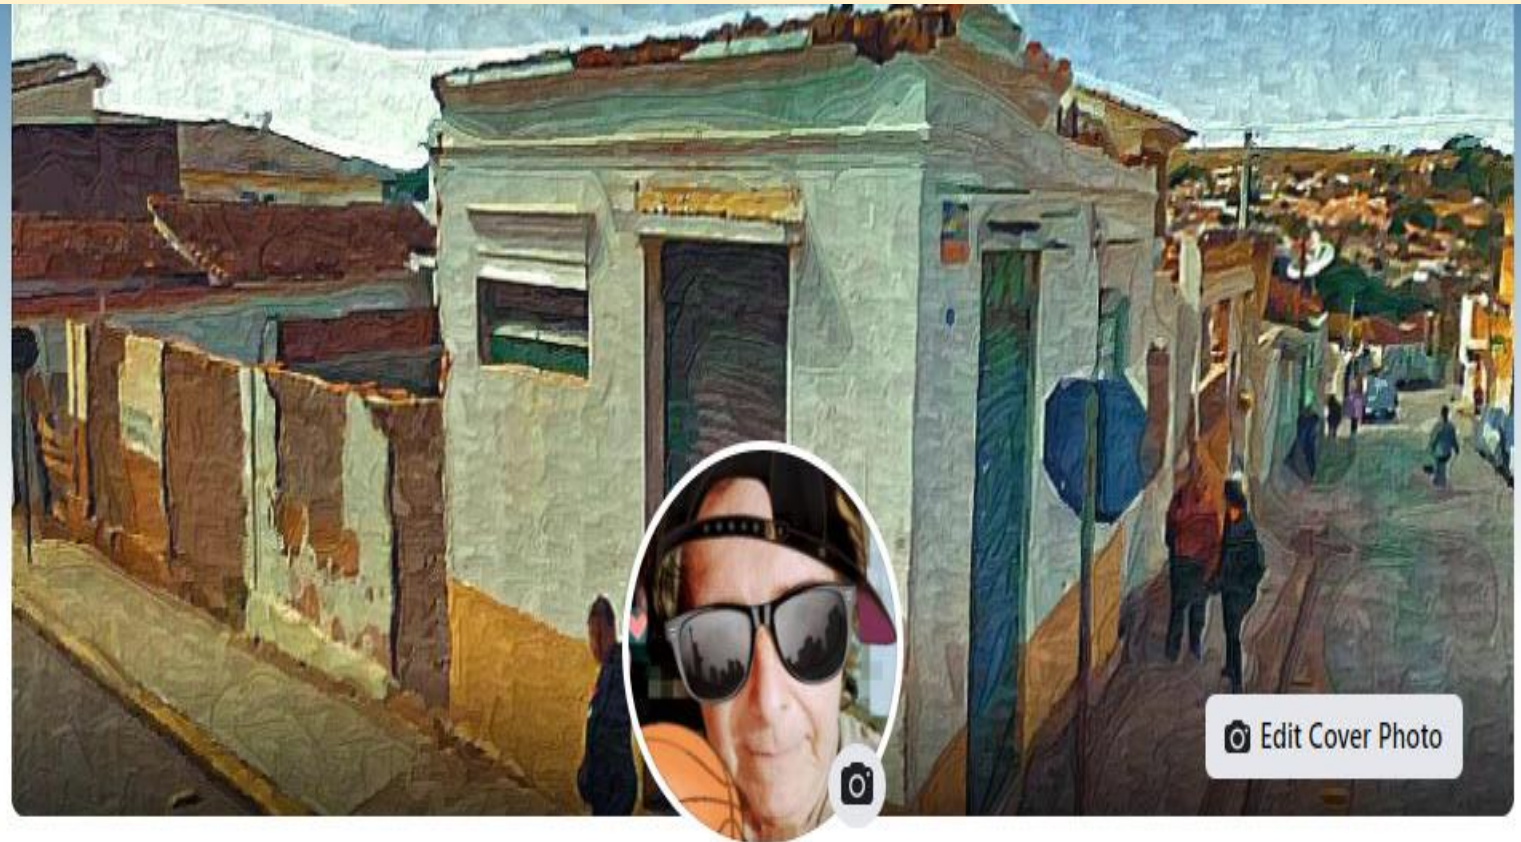

I approve yet another temple-based book from Emil?

I was too...believe me this was my good intention but, with the realities and circumstances of this dawn of the Brave New Social Reset, I had no better choice to make!

Why? Well...This is rather simple as Emil has been locked away on the Isle Of Penang for almost a year after the original 15-day lockdowns has turned into almost a year long internment and due to this simple fact, Emil has had to increasingly cannibalize the unused parts of his catalog."
